

CALL FOR COMMUNITY ART COLLABORATION

DEADLINE JUNE 30

Public Art | Federal Way Link Extension Kent / Des Moines Station

CAMBIUM by RE:site

In an effort to celebrate the diverse population that has contributed to the rich vitality of Kent and Des Moines, we are seeking small artwork sketches from local residents to be incorporated into our glass facade public artwork entitled *Cambium*. The mural concept envisions a narrative synergy between the multicultural diversity of the region and the natural beauty that surrounds these communities. A composition of trees and branches will form an arch that bridges South 236th St, as a gesture that evokes notions of embrace, friendship, and crossing divides. The word “cambium” refers to a ring of cells in tree branches that allow for growth, and these tree branches will visually intersect with the glass surface to reveal its cross section. Just as a tree ring is a visual record of the life of a tree, our concept interprets a visual survey of the region through culturally-inspired artworks.

Selected entries will receive a \$100 stipend and a permanent label located in the station. Preference will be given to sketches that reflect a cultural significance or theme of personal interest that tells your story.

- 1. Create** iconic imagery sketch & brief description, limit 2 entries (details below)
- 2. Save** as a vector file or **Photograph** your art as a jpeg with an smartphone and good lighting
- 3. Email** to info@resite-studio.com with subject line “FWLE Art Sketch - your name” by June 30

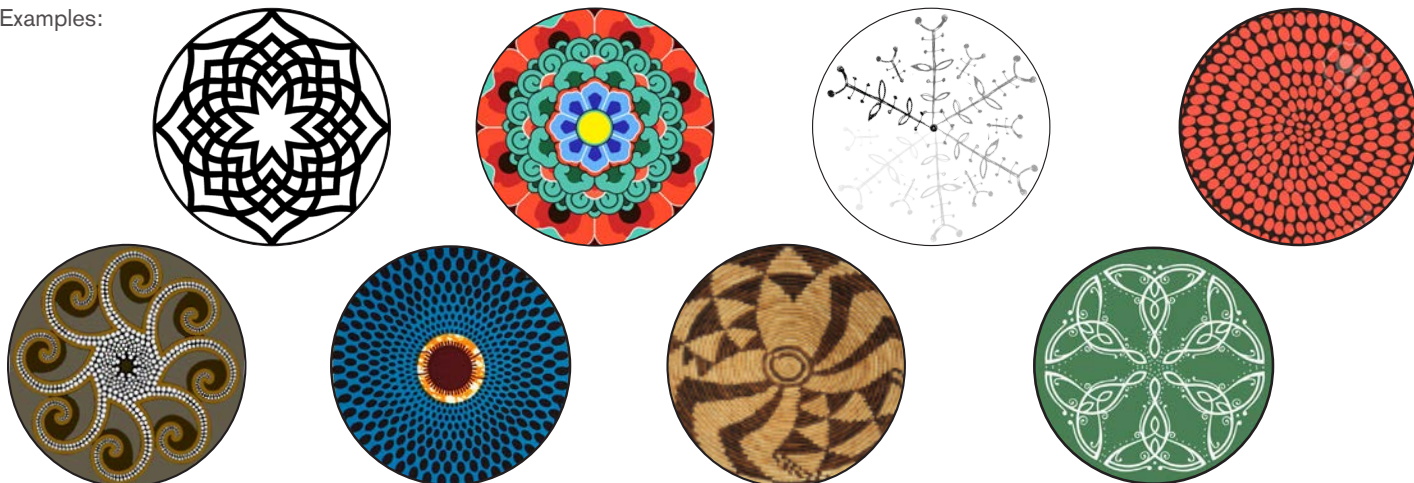

email questions to info@resite-studio.com

video brief: <https://youtu.be/z80IUZjdtNc>
